SUPPORT TO THE AFRICA-EU MIGRATION AND MOBILITY DIALOGUE

Objective

The programme aims at maximising the development potential of migration and mobility within Africa and between Africa and the EU within the context of the Joint Africa-EU Strategy (JAES). Its specific objective is to improve the governance of migration and mobility within Africa and between Africa and the EU and enhance the protection of migrants' rights.

Activities

The project is implemented on the basis of three interrelated components:

- Support to the Africa-EU dialogue and cooperation on migration and mobility which entails (a) the Continental Dialogue; (b) the Rabat Process and (c) the Khartoum Process as well as Valletta Summit follow up;
- The establishment of a demand-driven and needs-based facility to enhance inter and intracontinental cooperation on migration and mobility, which will support institutional capacity development at the level of AUC, RECs in the development, monitoring and implementation of pan-African migration and mobility frameworks and also support the implementation of initiatives addressing specific issues and/or geographical areas of the inter-continental dialogue agenda;
- Support to the African Diaspora as development actors, through consolidating the Africa-EU Development platform to become an autonomous entity and building the capacities of the network of African Diaspora Organisations focal points in Europe.

Implementation

The programme is co-financed by the Swiss Agency for Development and Cooperation (€1 million) and implemented by the International Centre for Migration Policy Development.
