

Contributing to the implementation of the Pan-African Programme by providing support to actions managed by the EU Delegation to the African Union.

#### *Facts and figures*

- ❖ Total budget: EUR 500 000 (100% EU budget)
- ❖ Action of the 2015 Annual action programme of the Pan-African Programme

## Support Measures – Annual Action Plan 2

The Pan-African Programme (PanAf) is in line with the conclusions of the last EU-Africa Summit (Brussels – April 2014) and with the overall Joint Africa EU Strategy (JAES) adopted at the Lisbon Summit (2007), where Africa and the EU established the Partnership at the highest political level. The PanAf is one of the instruments that will support the JAES and the first EU programme treating Africa as one.

### Objectives

The overall objective of the "Support Measures" is to contribute to the implementation of the Pan-African Programme by providing support to actions managed by the EU Delegation to the African Union. The project purpose is to cover costs linked with the identification, formulation, implementation and follow up of actions devolved to the EU Delegation to the African Union, which are not necessarily covered by other sources.

### Activities

The main activities will be the following:

- *Studies and technical assistance:* external technical and administrative expertise necessary at any stage of the project cycle. The expertise may cover, inter alia, programme/project related studies, identification and formulation, preparation of terms of reference, evaluation of tenders and advice on project implementation.
- *Conferences, seminars, workshops, training sessions, and study visits:* organisation and financing of conferences, seminars, workshops and training sessions, and study tours, including all related travel, accommodation, conference material, and information costs necessary for ensuring effective events.
- *Visibility, information and publications:* visibility activities covering, inter alia, publications, website and database management, information activities, media relations and media monitoring, and the production of audio-visual material.
- *Audits, Evaluations and Assessments*

### Implementation

This action may be implemented in direct management by procurement of services.
